Mohamed E. Hassan, PhD, P.E.

CONSTRUCTION EXPERT WITNESS · CONSTRUCTION MANAGEMENT CONSULTING

Haymarket, Virginia • (703) 898-0204 • info@hcgconsulting.com

PROFESSIONAL SUMMARY

Construction expert witness and construction-management consultant with 45 years of experience across commercial and residential projects and 18 years of expert witness, mediation, and dispute experience in the Virginia and Washington, D.C. court systems. Ph.D. in construction management; licensed Professional Engineer in Virginia and Texas; Class “A” contractor in Virginia and Washington, D.C.; and a Supreme Court of Virginia certified mediator. I prepare court-ready expert reports, perform site investigations, interpret building codes, and provide cost and delay analysis — and I testify at depositions and trial.

EXPERT WITNESS & DISPUTE RESOLUTION

- Testified and prepared expert evaluation reports for more than 18 years in Virginia, the District of Columbia, West Virginia, and Delaware.
- Scope of expert services: review of pleadings; collection and analysis of contracts, architecture/engineering plans, permits and inspections, photographs and video, and correspondence; site investigation; building-code analysis; cost estimates and cost analysis; preparation of expert evaluation reports; depositions and court testimony; and trial preparation.
- Certified mediator (Supreme Court of Virginia, J&DR / GDR) and member of the Virginia Mediation Network; facilitating resolution of construction disputes among owners, general contractors, and subcontractors.

  Representative matters (by jurisdiction):
  - Gazach v. Carlton Association — Washington, D.C.
  - Alkhasaji v. State Farm Insurance — Virginia
  - The Writers v. Bristol Springs Custom Homes — West Virginia
  - Douglas Builders v. The Marshalls — Delaware

LICENSURE & COURT QUALIFICATIONS

- Licensed Professional Engineer (P.E.) — Virginia and Texas
- Class “A” Contractor license — Virginia and Washington, D.C.
- Admitted in the Virginia and Washington, D.C. court systems
- Supreme Court of Virginia mediator certification (J&DR, GDR)

M.S. — Civil Engineering, Structural Analysis — 1982
City College of New York

B.S. — Civil Engineering — 1977
Cairo University, Egypt

PROFESSIONAL EXPERIENCE

President — Hassan Consulting Group 2007 – Present

Haymarket, Virginia

- Direct planning, design, and construction of commercial and residential projects, and lead the firm's expert witness and mediation practice.
- Selected projects: PWIC commercial building & expansion (Manassas, VA); Noor Residence major renovation, 5,000 SF (Washington, D.C.); Birch Street Tire Sales, 10,000 SF warehouse (Manassas, VA); Musa Residence design/build, 5,000 SF (Great Falls, VA); Thorne Residence luxury custom home (Maryland); Cox Trailer, 30,000 SF office & showroom (design); Dower Employment Center, 15,000 SF mixed-use (design); Abdullah Residence addition, 1,800 SF (Fairfax, VA).

President / CEO — Tristate Development 1995 – 2006

Chantilly, Virginia

- Led feasibility, design, and construction of multi-project developments, including United Central Bank (6,000 SF; recipient of a bank-owner achievement award), SLM Concrete mixed-use building (16,500 SF), the Heron Pointe lakefront home subdivision, Pegg Run 37-unit townhome subdivision (Maryland), and Patuxent Park West, a 173-unit mixed-use PUD.

Division Manager — Universal Development 1992 – 1995

Falls Church, Virginia

- Managed land acquisition, feasibility studies, engineering design, and development of Maryland subdivisions, including Hunters Point (59 lots), Hunters Brooke (319 units), Accokeek Landing East, and the Waters Edge 249-unit feasibility study.

Regional Manager — BMI Development & Construction 1986 – 1992

Oxon Hill, Maryland

- Managed design, development, and construction — bidding, scheduling, budgeting, quality control — of multiple single-family subdivisions (PG County, MD) and a 52-unit duplex PUD (Indianapolis, IA).

Structural Engineer — Frederic R. Harris 1983 – 1985

New York, New York

- Design and analysis for the widening of three miles of the Garden State Parkway, including three new steel bridges and one reinforced-concrete bridge; foundations, piers, abutments, and bridge superstructures.

Structural Engineer — Joseph R. Loring & Associates 1980 – 1983

New York, New York

- Structural investigations and steel, concrete, and precast bridge design; structural-integrity studies for the Outerbridge Crossing for the Port Authority of New York.
